

# Jeu Imagine ta campagne, ville, bord de mer

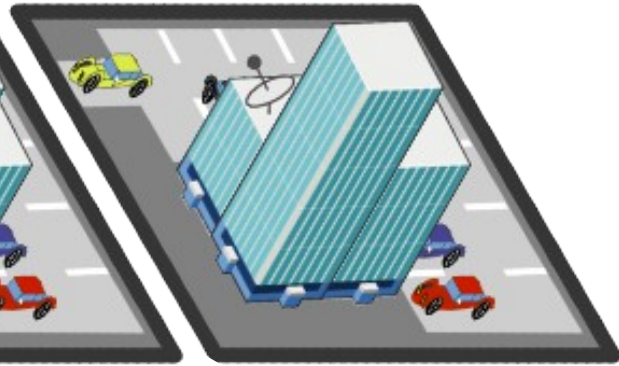

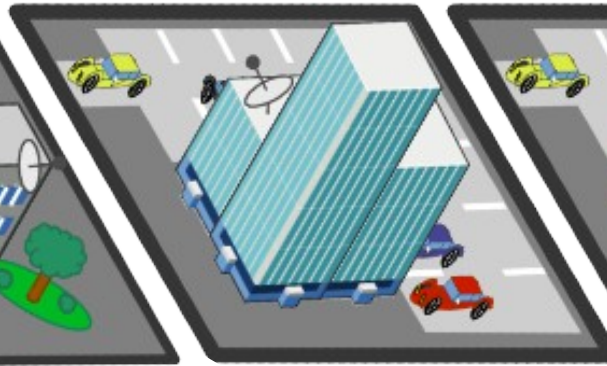

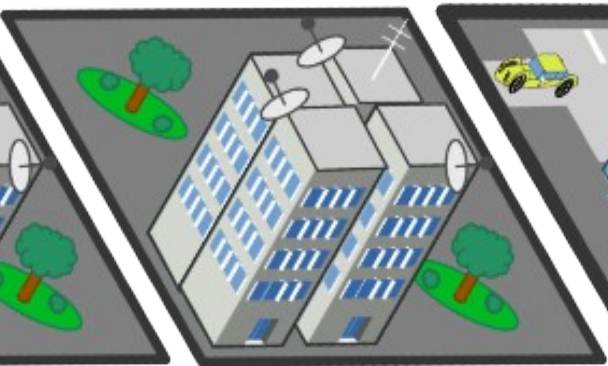

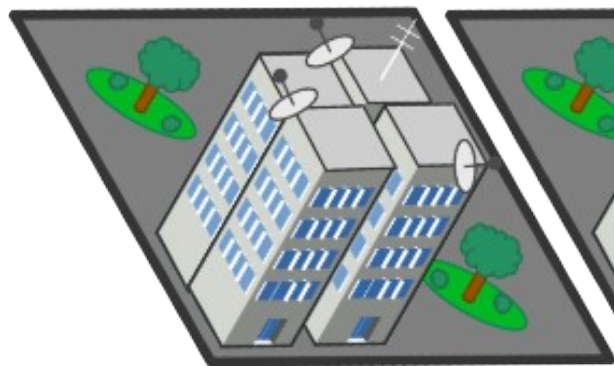

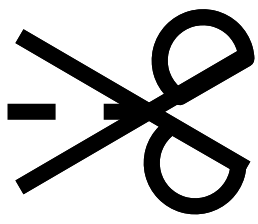

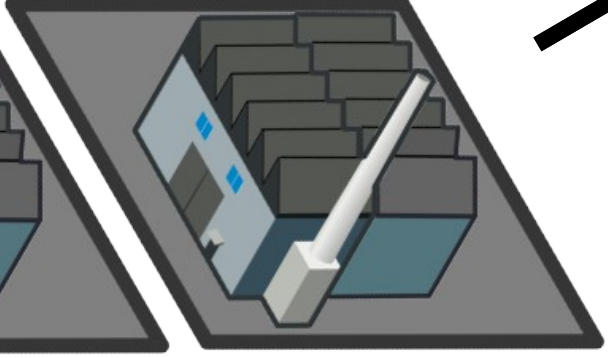

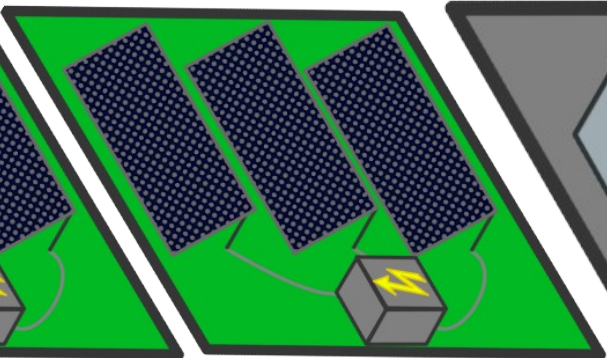

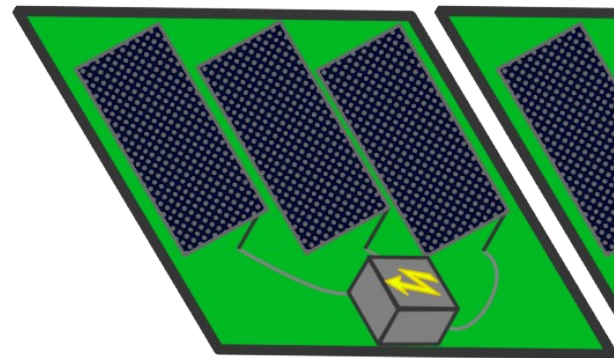

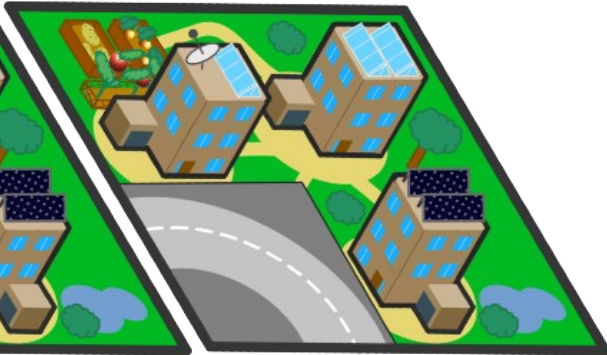

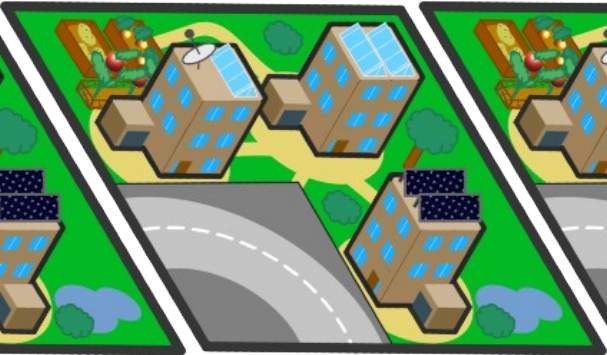

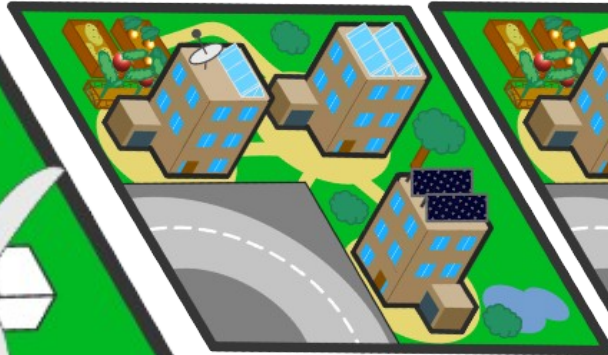

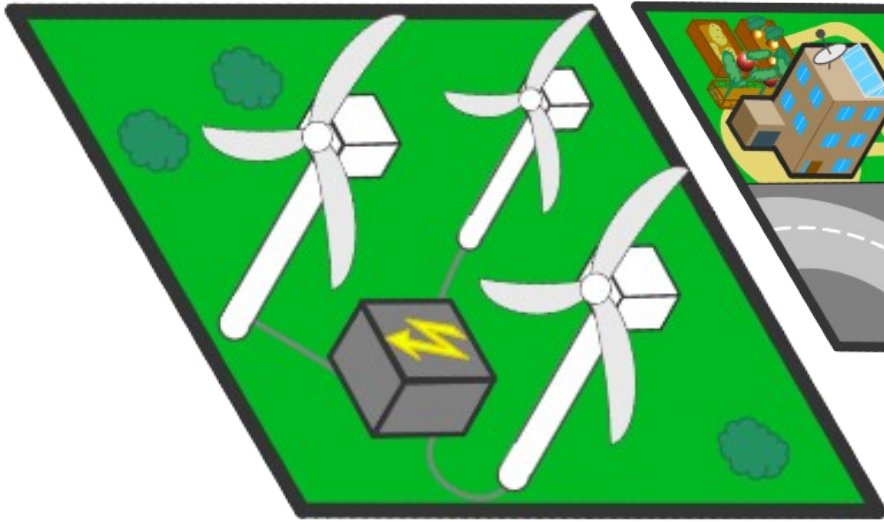

## Jetons structures à modifier pour plateau A2

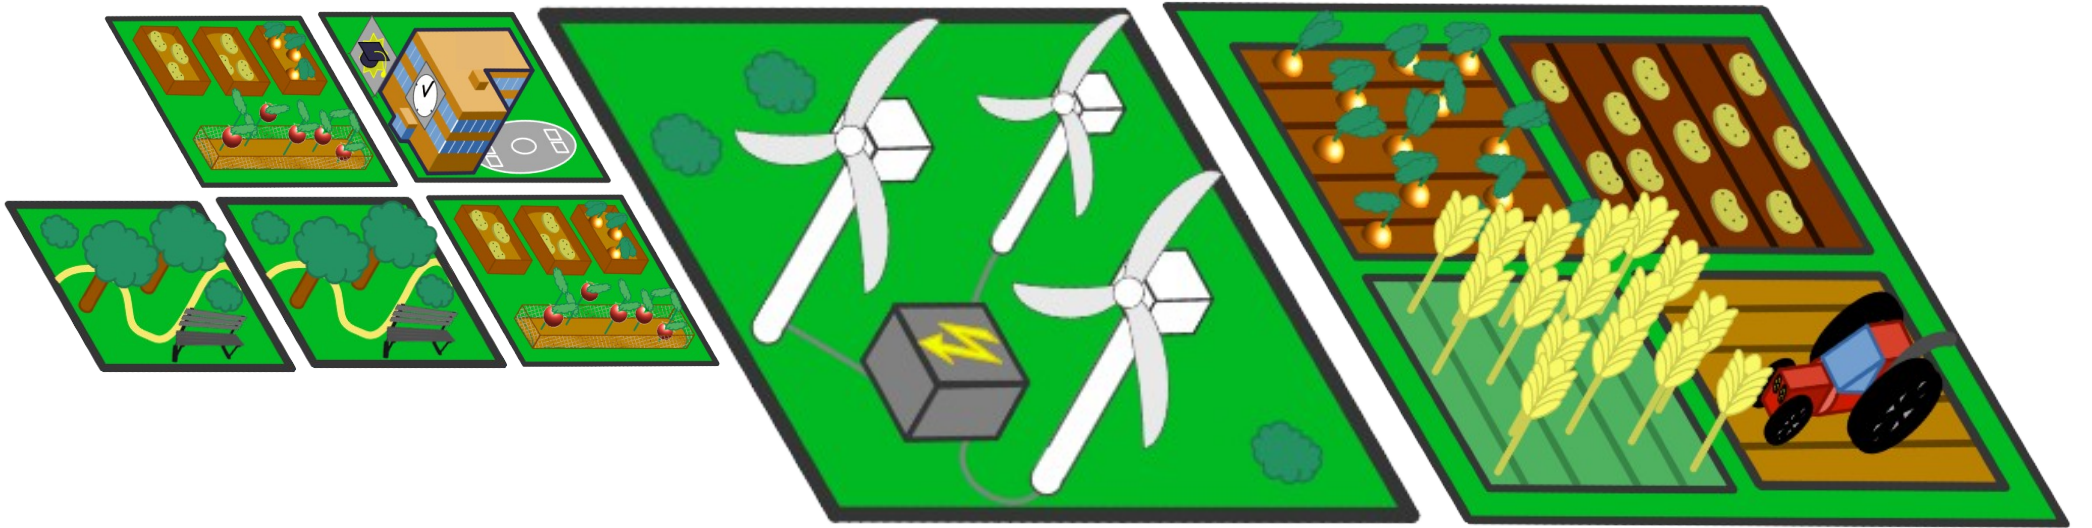

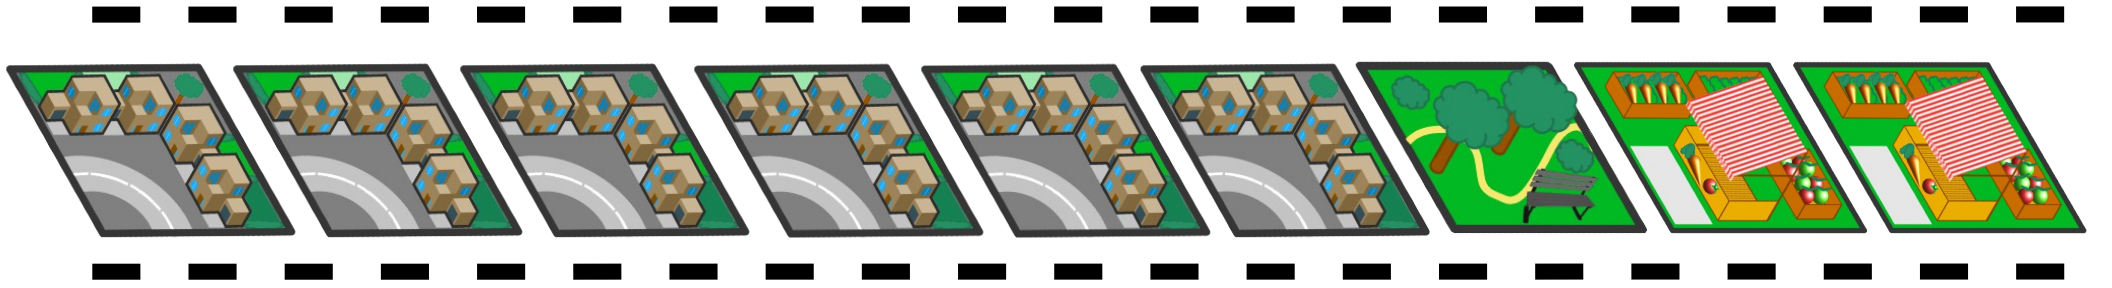

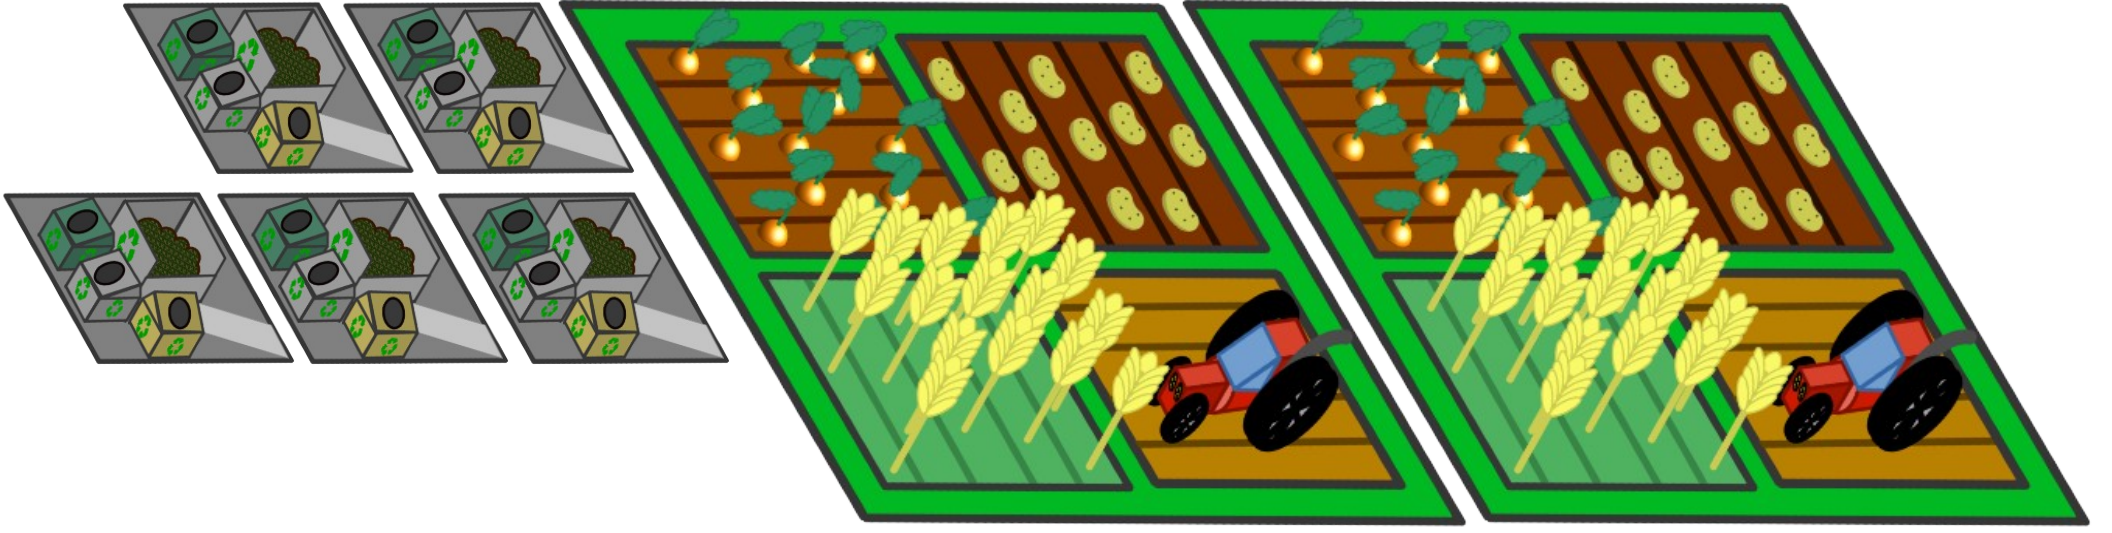

Le présent document est prévu pour être ouvert et modifié avec LibreOffice Draw (logiciel libre) en version 7.1.0.3. Attention, bien que la taille des pages soient du A4, la taille des jetons (4.5 centimètres le long de la grande diagonale du losange) est faite pour correspondre au plateau **au format A2**.

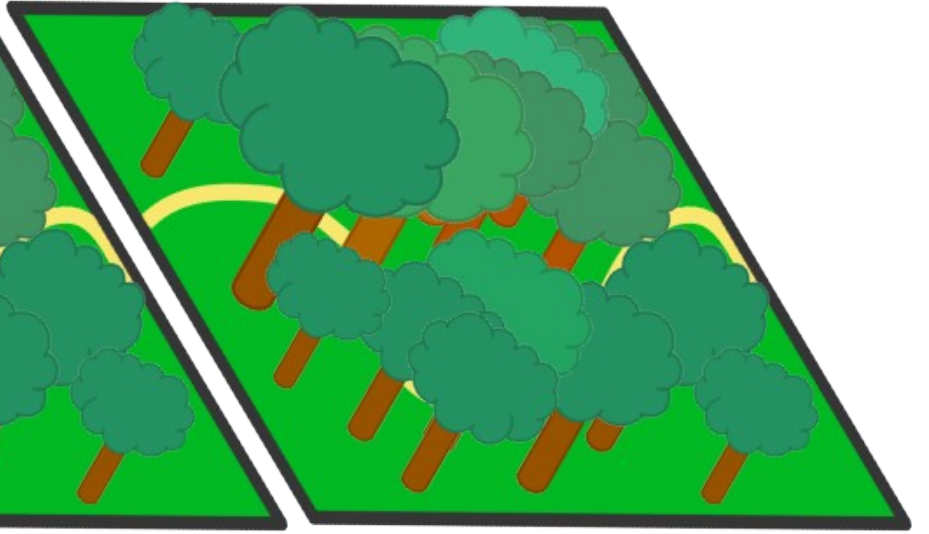

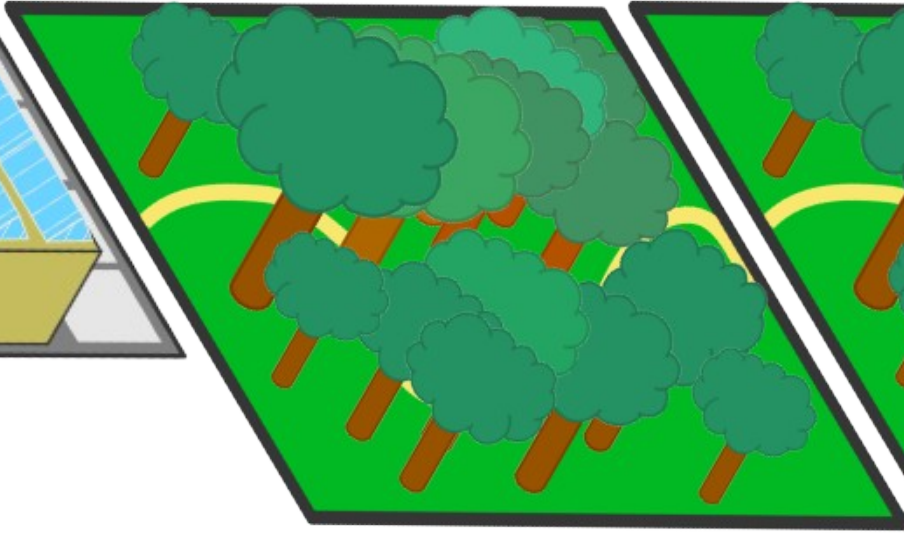

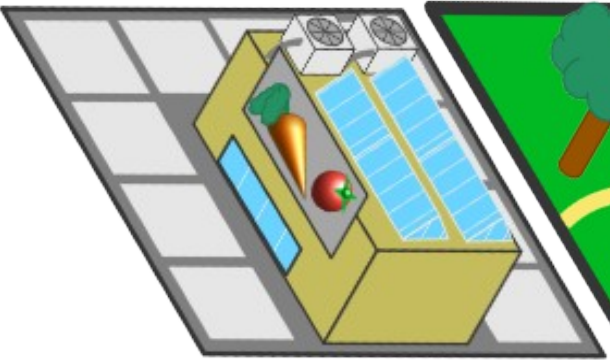

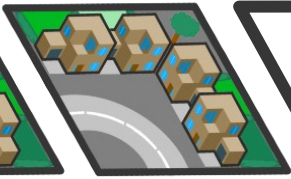

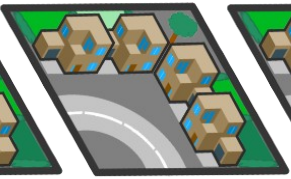

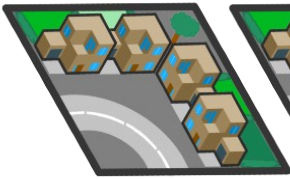

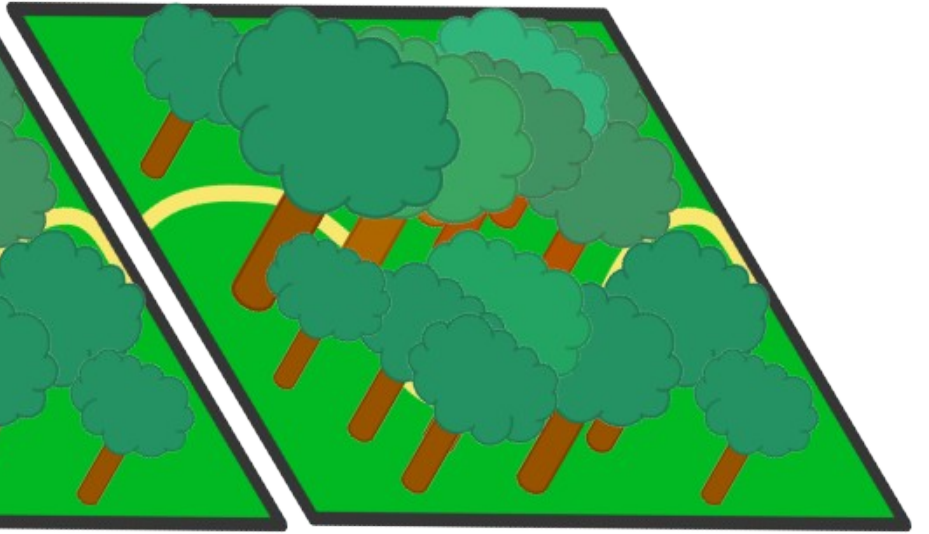

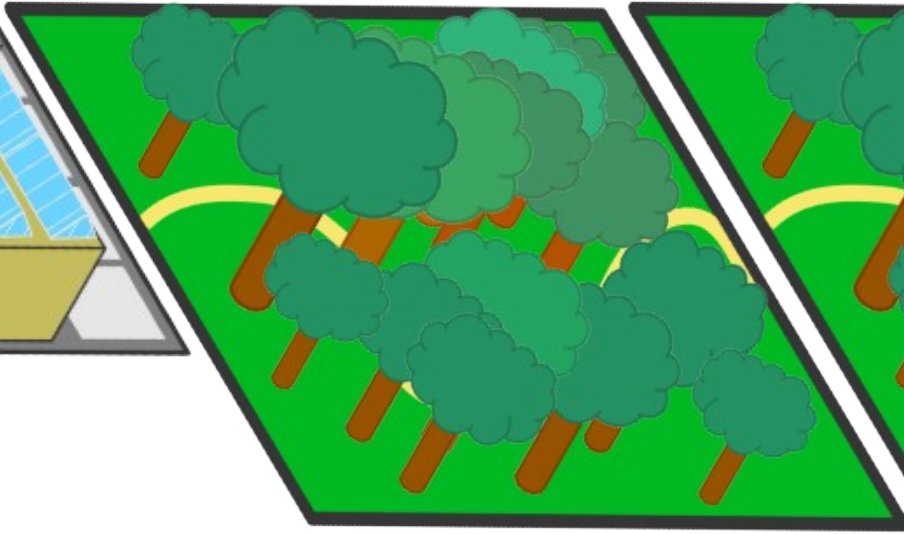

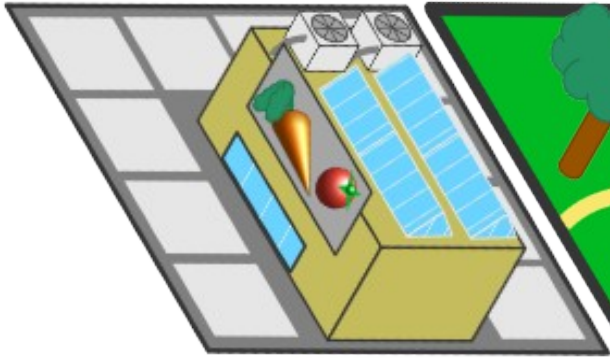

Pour obtenir les jetons correspondant à l'impression du plateau en A2, vous devez **imprimer ce document au format A4**.

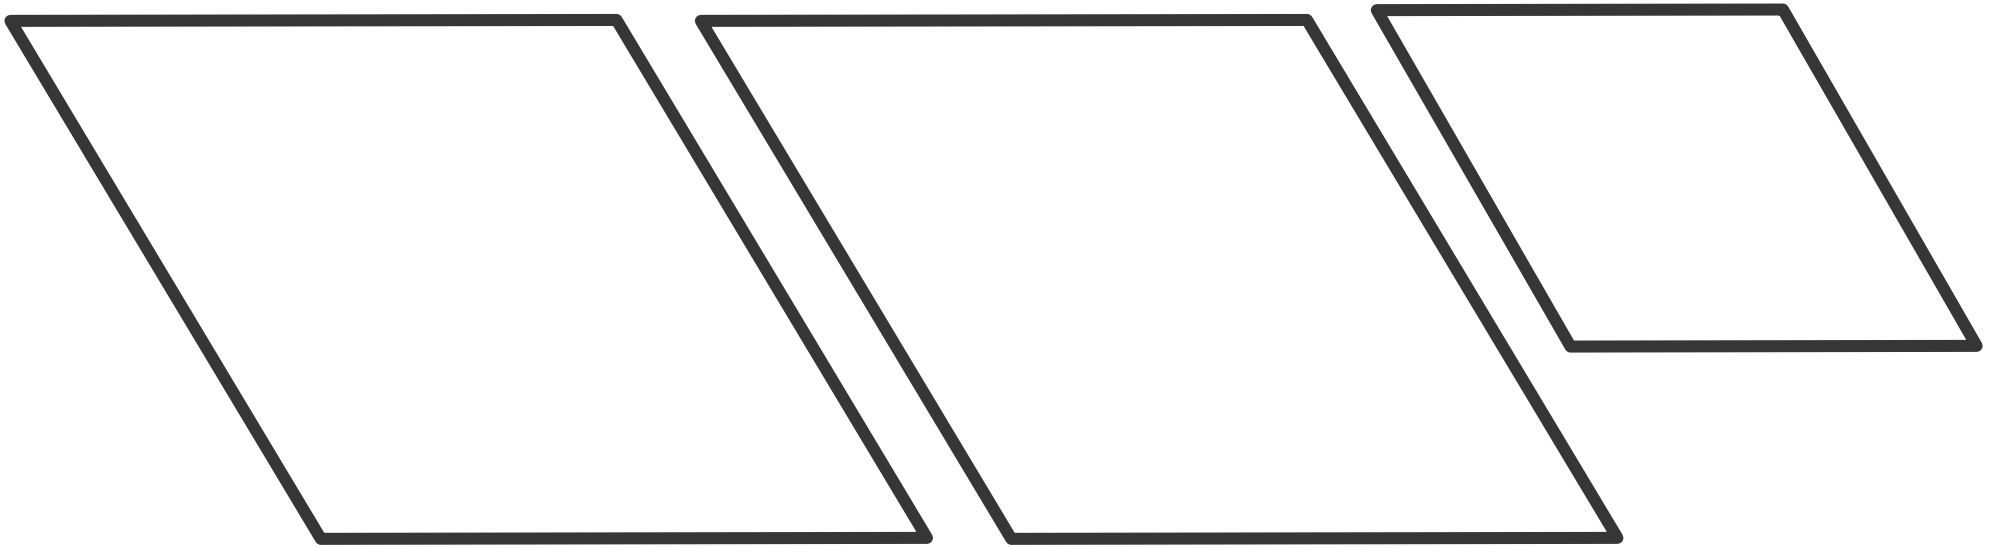

Pour faciliter la découpe des jetons de tailles différentes, découpez les pages en grande bandes dans le sens de la longueur, puis coupez individuellement les jetons.

Jetons à remplir par soi même
